

Baby Heartbeat Monitor App

Using your smartphone or tablet, you can now listen to your baby's heartbeat whenever you want.

No need for any specialized equipment, and it's completely safe! Features as follows,

- Clear step-by-step tutorials
- Record your baby's heart beat
- BPM calculator (Beats Per Minute)
- Pioneering Audio Engine
- Share on Facebook and Twitter
- Lots of extra useful information about your baby and foetal positions in the womb.
