

How to deploy AI  
for delivering  
new levels of insights

## **AI Powered *Resume Recognition***

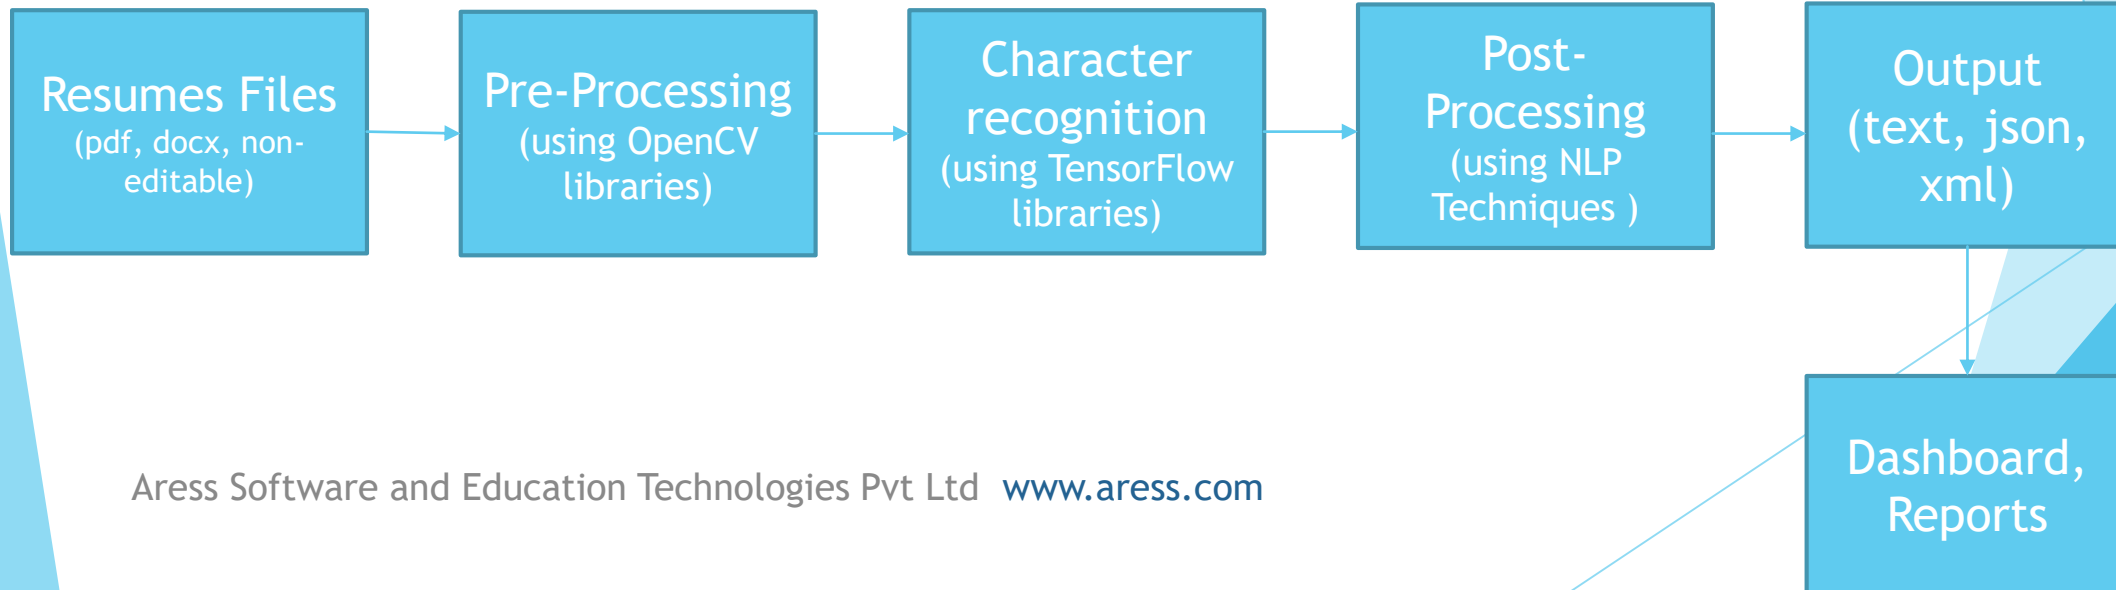

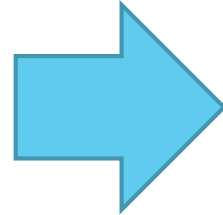

# Need for AI Powered Resume Recognition

- ▶ Manual resume screening takes a lot of time & effort, especially when there are a number of resumes to go through in a short span of time
- ▶ Resumes could vary in formats like word, pdf, image files etc and could pose a challenge to quickly manage and sort
- ▶ Retrieving relevant CV's based on key criteria like job description, years of experience, location etc could be difficult

## Need for AI Powered OCR

- ▶ Impossible to perform operations like editing, searching operation on docx and pdf files
- ▶ With OCR one can digitise printed texts enabling us to electronically store and search text content
- ▶ Uses techniques including machine learning processes such as artificial intelligence, computer vision, cognitive computing, machine translation, data/ information identification and extraction and text mining

# AI Powered Resume Recognition - The Process

***Thank you for viewing the presentation  
about Resume Recognition AI solution.***

***We request to you kindly share the resume  
files which you need to get processed by  
sending an email to  
[devdatta.kumbhare@aress.com](mailto:devdatta.kumbhare@aress.com)  
and we will get back to you with our analysis  
within 4 working hours.***
